- Execution
- Quality of Execution

Style

- Fluidity / Power / Aggression
- Speed
- Height / Distance
- Quality of Landing

JUDGING CRITERIA Continued

Use of Course

- Variety of Tricks
- A higher number of tricks will not necessarily result in a higher score as the value of difficulty and execution are important in formulating an overall impression score.
- Variety of Obstacles
- Flow

Consistency

- While consistency and runs without any bails are a key factor in any high-scoring performance, consistency alone will not be enough to win a competition, as the value of difficulty, execution, and use of course are important in formulating an overall impression score.

ATHLETE SAFETY

We remind all participating athletes that physical safety during practice and competition times is paramount. It is recommended that athletes of all ages and disciplines regularly review their protective equipment.

Helmets are compulsory at all times during practice sessions and competitions in Park for all athletes.

Helmets are compulsory at all times during practice sessions and competitions in Street for athletes under the age of 18, however we strongly encourage all athletes to wear a helmet even if not mandatory.
